SLTC Standalone Courses for Personalized Professional Training (PPT)

For students who only need one or more courses for purposes other than earning a certificate for a full program of study. Students might be able to complete selected assignments anywhere Internet is accessible. However, practical examinations and assignments must be completed in the classroom during instructional time.

Unless otherwise noted, students interested in PPT courses within Competency-Based Education (CBE) programs must complete a minimum of 12 hours of coursework per week (hybrid or classroom). Upon registration there will be a course completion date assigned to the student.

Air Conditioning Heating and Refrigeration:
