

# PARENTS

# GUIDING YOUR STUDENT THROUGH CONCURRENT ENROLLMENT

## RESPONSIBILITY

### ALLOW YOUR STUDENT TO LEARN COLLEGE PROCESSES

Although courses are taught at the high school, expectations of your student are that of a college student. Teach them responsibility by allowing them to work through college processes themselves, advocate for themselves, and learn how to be successful in college.

## RESILIENCE

### HOLD YOUR COLLEGE STUDENT ACCOUNTABLE

Your student is bound to fall down and letting them pick themselves back up is hard to do. Those who are allowed to make mistakes and pay the consequences are more likely to learn from those mistakes.

## SUPPORT

### GUIDE AND ENCOURAGE YOUR STUDENT

Learn all you can about Concurrent Enrollment by visiting our website shown below. Your college student needs to know that you are there to help guide them in the right direction when they need you. Encourage good habits such as always attending class and setting aside study time.

# UNDERSTANDING FERPA

The Family Educational Rights and Privacy Act (FERPA) is the Federal law that protects the privacy of student education records. According to this law, these rights transfer from the parent to the student once the student attends a school beyond high school. Even though your student is still a minor, their academic record belongs to them. **WE CANNOT DISCLOSE INFORMATION TO ANYBODY BUT THE STUDENT.**

# TUITION AND FEES

Your student's first step will be **APPLYING** to SLCC and there is a one-time \$40 application fee associated with this. When a student **REGISTERS** for a class, tuition is charged at a rate of \$5 per credit-hour. Most courses are 3 or 4 credit-hours but may be more for year-long courses. There may also be class fees for materials that are charged by the high school. All correspondence regarding financial matters at SLCC will be sent to your student through their SLCC e-mail. All payments can be made online through your student's MySLCC page or by calling the SLCC cashier with your student's S#.

# WHAT ARE THE STUDENTS SAYING?

Quotes from student course evaluations.

*“ I like how you are treated more like an adult. I find the classes more intriguing than AP courses and enjoy the discussions they give. They are more centered around preparing you for college rather than just receiving a good grade. ”*

*“ I have been taking concurrent classes for two years now and there are a few reasons I love it so much. The first is the price because getting a higher education for \$5 a credit is almost unheard of and it's so helpful for people who struggle to pay full tuition. Second it's nice to be able to get a head start on my college education and get some credits out of the way to save time and money when I move on to further my education. The third and I think most crucial reason I loved taking concurrent classes was the level of responsibility and accountability I'm expected to have. Being treated like a college student and like an adult was important to me because it taught me some skills I can continue to use. I now feel more prepared to be on my own and to apply the good habits I've learned. ”*

*“ Taking concurrent classes has been the best decision I've ever made. The atmosphere of these classrooms is more geared towards students who have a desire to learn they want to be in the class. The material is harder and more challenging to learn which encourages good personal study habits. There is very minimal busy work in concurrent classes versus regular High School classes. I have truly enjoyed learning in the concurrent environment I feel heard and respected as an adult as I also feel like i can participate in group discussions and share my opinion more openly in concurrent classes as opposed to my regular classes. ”*
