

Los Alamos National Laboratory

Be part of something *bigger.*

At the Laboratory, you're among the brightest minds in the world, tackling stimulating work and contributing to national security—no matter what your role is. Each day offers opportunities to learn from your colleagues, on topics from nuclear security to climate change, public health, and more.

Careers for Everyone

Many think you must be a scientist to work at LANL. Although we couldn't do our work without scientific and technical expertise, we offer a vast array of career opportunities for thousands of support staff with a variety of skillsets.

Big Benefits

We not only offer highly competitive compensation, but also great health insurance options, a best-in-class 401(k) with up to 6% matching and an additional 3.5% non-elective employer contribution, plus tuition assistance, relocation reimbursement, and many other perks along the way.

Life in Northern New Mexico

Enjoy a great life in the healthiest county in the United States. Los Alamos and its neighboring residential community White Rock are surrounded by national forest lands, parks, and endless adventure for hikers, mountain bikers, rock climbers, bird watchers, skiers, and more. You can be on the trail within a few minutes of your shift ending. Some employees live in nearby communities such as Española, Santa Fe, and Rio Rancho, where the activities and housing offer different options and awe-inspiring views.
