

# Land Surveyor

Cache Landmark is a civil engineering and land surveying firm based in Logan, Utah. We specialize in a wide variety of municipal and private engineering in Northern Utah and Southern Idaho.

Cache Landmark currently has an exciting opportunity for a Land Surveyor - licensed or on a track to becoming licensed within a few years. This position has great potential for growth in project responsibilities, combined with technical challenges. There will be involvement with a wide variety of municipal and private surveying projects in Northern Utah and Southern Idaho.

## Duties & Responsibilities:

- Perform records research
- Collect field data
- Utilize CAD to generate maps and perform calculations
- Generate boundary, topographic and utility maps
- Perform construction staking
- Generate cost estimates for prospective projects
- Organize and maintain equipment
- Ability to train others

## Requirements & Qualifications:

- Understanding of different coordinate systems and transformations
- Ability to work in all types of weather
- Able to read plans and do calculations to perform construction staking
- Quality control and technologically savvy
- Excellent communication skills
- Proficient in Autodesk Civil 3D
- Familiar with various types of surveying equipment
- 2 years of experience preferred. Surveying or a related degree is a plus, but we would consider a candidate that is willing to take online courses after hours.

## Salary & Benefits:

- Competitive salary commensurate with education and experience
- Retirement contribution up to 3% of salary
- Paid vacation
- Sick leave
- Paid holidays
- Group health insurance
