

CONCURRENT ENROLLMENT - SLCC Quantitative Literacy (QL) Math Pathways

This chart is designed for students who have not yet narrowed down a specific major or institution. Students who have narrowed their focus to a specific major, should contact an advisor at the institution they are planning to attend to find out which math classes are recommended for that major. Failure to do so could result in the student accumulating credits that do not count toward their degree.

* The SLCC Placement Process replaces Accuplacer. Students who took the Accuplacer prior to its phase-out during February 2019 may continue to use those scores to place into Math for up to one year after the test was taken. To find out what those scores were, consult the SLCC CE Course Offerings List.

For information regarding the SLCC Placement Process visit <https://www.slcc.edu/placement/dt/math/index.aspx>.

** Students who have opted out of Secondary Math I, II, OR III do not qualify to participate in concurrent enrollment math.

For more information regarding these courses and SAT scores visit slcc.edu/concurrentenrollment and click on the "Course Offerings" link.
