*"Everyone needs an education to do their best at their job. Putting education off only delays its benefit to you."  
-Joseph V. Yenchik*

Joe served as a SLCC PAC Chair for 15 years, and he has been a member of the CAC since 2004.

Joe has worked for L-3 Communications for 30 years. L-3 Communications is a leader in communication systems for intelligence collection, imagery processing, and satellite communications. He has watched how the industry has drastically changed over the years. Many of the labor intensive work tasks are changing to automated systems and may be completely automated in the near future.

Away from work, Joe enjoys wood work and gardening.
