Federal and state financial aid is intended to assist students as they make successful progress towards completing a degree or certificate. Therefore, the student carries the responsibility to demonstrate progress towards that goal. Students are permitted to attempt 150% of the published number of credit hours required for graduation in order to complete a degree or certificate. If a student has attempted 150% of the number of hours required for graduation, then they have reached the maximum time frame. Maximum time frame takes into account the *full* academic record of the student's attendance at Salt Lake Community College, *regardless* of whether the student received financial aid funds during previous periods of enrollment or when those periods of enrollment took place. Transfer credit will also be used in the determination of maximum time frame.
