Preceptor Training
2021
MORTUARY SCIENCE PROGRAM
SALT LAKE COMMUNITY COLLEGE
Introduction

The American Board of Funeral Service Education requires mortuary science schools to provide instruction to and assessment of clinical sites.

This training highlights some of the important parts found in the Clinical Preceptor Manual.

- Every preceptor must read through this training
- Every preceptor must read the entire Clinical Preceptor Manual
- Upon completion of the above, each preceptor must complete the Preceptor Training Quiz on the Fieldwork page of the SLCC Mortuary Science program website.

The reading and quiz **MUST** be completed **BEFORE** the student(s) can start their clinical work with the preceptor.
Clinical experience description

Student is to complete three different types of tasks at the clinical site:

1. Student is to assist embalming at least 10 cases under the direct supervision of an approved preceptor. The student may NOT be left alone to complete any part of the embalmings. Student knows they may be required to work nights and weekends to complete this requirement.

2. Student is to OBSERVE the arranging of at least 2 arrangements with families. It is up to the preceptor how much the student participates during the arrangement. If the student is to “just sit and listen,” that is acceptable. Make sure the student is aware of their level of participation during the arrangement before you meet with the family.

3. Student is to OBSERVE at least 2 funeral services with the preceptor present. You may put the student to work and have them help!
Clinical experience description

If possible, the student should also

- Assist with two visitations
- Help prepare two bodies for cremation
- Assist with two removals

Students are to follow directions given by the preceptor and other designated personnel during the clinical period.

Students must comply with clinical site policies, procedures, and dress code.

Students may not disclose any personal information regarding the deceased or client-family.

Preceptors must understand and know the requirements for Family Education Rights and Privacy Act when dealing with a student. These requirements are found at [www.ed.gov/policy/gen/guid/fpco/ferpa/index.html](http://www.ed.gov/policy/gen/guid/fpco/ferpa/index.html)
Work Schedule and Compensation

Work schedule for the student is determined by the funeral home where the student is placed.

The 10 embalming procedures are to be completed by Dec. 10, 2021.

Other required tasks and assignments must also be completed by the same date.

*NO compensation is to be given to the student, whether they are employed by the funeral home or not, for the time and work spent completing required tasks while at the funeral home practicum site.*

If the student is employed at the funeral home, they must “clock out” while they complete the required tasks: perform 10 embalmings, observe 2 funeral arrangements, assist/observe 2 funeral/memorial services.
Site Requirements

All clinical site embalming rooms must meet state and federal safety requirements and will be inspected by someone from the SLCC Mortuary Science Program to ensure safety and quality instruction for the student.

The following must be in place at each clinical site
- Valid, current location license
- Drench shower
- Eye wash station
- SDS
- Bloodborne pathogen program
- Ventilation system
- Proper protective equipment
- Date and results of the last OSHA formaldehyde monitoring
Clinical Site Visits

Faculty from the Mortuary Science Program will contact the preceptor throughout the semester to discuss the student’s progress and address any issues that may arise.

Faculty member will observe and assess student during their last required embalming
Student Discipline

Please notify the program director (David Hess, cell 573-275-0346, email david.hess@slcc.edu) immediately regarding any difficulties that are encountered with the student.

The funeral home has the right to remove the student from the funeral home at any time.

Students know if situations arise that cannot be resolved, the clinical assignment will be terminated.

Each student is covered under SLCC’s college malpractice insurance policy.
Procedure for Student Injury

If a student has been injured or exposed, follow these procedures IMMEDIATELY. It is crucial the student does not wait to report the incident or to seek medical attention.

1. Contact the supervisor immediately

2. If exposed, identify source of exposure

3. Notify SLCC Risk Management immediately, day or night
   Mikel Birch 801-957-4041

4. Student is to file a claim with SLCC Office of Risk Management

The details of the procedure for student injury are found on pages 5-6 of the Clinical Preceptor Manual.
Student Attendance

Student is to maintain the appropriate schedule as assigned by the individual funeral home.

Student is to be on time and available for calls when directed.
Hepatitis B Vaccinations

Each student participating in the clinical period has either had the vaccination or has signed a declination statement that is on file in the program director’s office.

The refusal of a student to be vaccinated as required by the funeral home’s standards and policies may be a cause for removal from a clinical site.
Student Evaluations

A sample of the evaluation form to be filled out by the funeral home is in the Clinical Preceptor Manual.

The actual evaluation form you will fill out will be mailed to you by David Hess, the Program Director, towards the end of the clinical period.

If you have any questions about how to fill out the evaluation form, please contact David Hess: david.hess@slcc.edu

Students will also complete an evaluation form regarding his or her clinical experience.
Case Reports

Each time a student participates on an embalming case, he/she is required to maintain a record of that case report to be turned in to the director of the program.

Names are omitted from this form; however each student is to assign a number to each form and maintain a separate name list for each embalming.

Other task report forms for working funerals, visitations, cremations, arrangements, and removals are to be filled out by each student pertaining to all of the required tasks they have completed.

A sample of the case report is located in the Clinical Preceptor Manual.
Requirements for “hands on” embalming cases

For an embalming case to be accepted toward the SLCC Mortuary Science Clinical Program, each student is required to actively participate in the embalming of a minimum of ten deceased human bodies. To be considered actively participating, students are required to perform the following per embalming case:

Performing or assisting in: raising of vessels, mixing fluids, injecting fluids, aspiration, suturing of incisions and posing features

Students should be allowed to raise the following arteries: Common Carotid, Femoral, Axillary, Brachial, Radial Ulnar

The embalmings are to be completed under the direct supervision of the assigned preceptor. The student may NOT be left alone to complete any part of the embalmings.
Other Tasks

For students to gain practical experience in various areas, they need to observe or participate in the following:

**REQUIRED**
- Observe at least 2 arrangements for burial and/or cremation
- Observe at least 2 funeral/memorial services at the funeral home, church, or graveside

**OPTIONAL but suggested**
- Assist with visitations
- Prepare bodies for cremation
- Removals

Case reports for the above are also in the Clinical Preceptor Manual
Clinical Site Cell Phone Policy

There shall be no use of personal cell phones during regular business hours during the clinical. This includes texting of messages while working at the funeral home.

Cell phones may be used during clearly defined or assigned break periods or as directed by the clinical supervisor.

If this policy is not adhered to, it is the decision of the host funeral home whether to provide discipline or to simply dismiss the student from the clinical.

If a student is dismissed from the clinical for any reason (as stated within the student handbook) they will not be placed with another funeral home setting for the remainder of their clinical.
Clinical Performance Assessment

Detailed information about the clinical performance assessment and the forms to be completed by the preceptor are located on pages 32-40 in the Clinical Preceptor Manual.

The assessment form to be completed by the student is located on pages 41-43 of the Manual.
Title IX

**Title IX** is a comprehensive federal law that prohibits discrimination on the basis of sex in any federally funded education program or activity.

Please review the following slides since Title IX protects our students.

If you have any questions, contact either David Hess ([david.hess@slcc.edu](mailto:david.hess@slcc.edu)) or Jeff Zealley ([jeff.zealley@slcc.edu](mailto:jeff.zealley@slcc.edu)) at Salt Lake Community College.
Title IX Statement

20 U.S.C.A. Section 1681 (a): TITLE IX
“No person in the United States shall, on the basis of sex, be excluded from participation in, be denied benefit of, or be subjected to discrimination under any education program or activity receiving federal funds.”

Examples of violations (but not limited to):

◦ Sexual advances, requests for sexual favors and sexually motivated physical conduct
◦ Overt or subtle pressure for sexual activity
◦ Sexually offensive verbalization including remarks, “teasing”, slurs, and innuendo
◦ Repeated inappropriate jokes or comments about sex or gender specific traits
◦ Conduct that is demeaning or derisive and occurs substantially because of one’s gender
◦ Sexual assault
◦ Sexual Violence
◦ Gender based disparate treatment
Title IX Statement (continued)

Violations can occur in any college environment, such as (but not limited to):

- Field Trips
- Student Clubs
- Transportation
- Classrooms
- Athletics
- On Campus Events
If you have questions or concerns regarding your rights or responsibilities, or if you would like to file a Title IX complaint please contact:

**Students-**
Dean of Students, 801-957-4776, STC 276 A (Redwood)

**Employees or Community members-**
Title IX & Discrimination Manager, 801-957-5027, AAB 211G (Redwood)

**Online Reporting Form-**
http://www.slcc.edu/eeo/title-ix/complaint.aspx

**Salt Lake Community College has a strong prohibition against RETALIATION!** The college does not tolerate acts of retaliation against anyone for engaging in filing a complaint or participating in an investigation.
Reminder!

You’ve now finished the Preceptor Training.

After you have read the Clinical Preceptor Manual and this information, you need to take the Preceptor Training Quiz on the Fieldwork page of the SLCC Mortuary Science Program website.

Students will NOT be able to start their clinical study until you have completed the above. The semester starts on August 24, 2021.

THANK YOU FOR YOUR WILLINGNESS TO HELP OUR STUDENTS!
