

Pharmacy Technician Training

What is a Pharmacy Technician?

A person who, under the supervision of a licensed Pharmacist, assists in various activities of the pharmacy department.

What does a Pharmacy Technician do?

Typical duties include maintaining patient records, setting-up packaging, labeling medication doses, filing and distributing routine orders for stock supplies.

Where does a Pharmacy Technician work?

A Pharmacy Technician works in hospitals, clinics, home health care operations or retail settings.

What is the range of salary for Pharmacy Technician?

A Pharmacy Technician wage typically ranges from \$10.00 to \$17.00 per hour.

Is there a job demand for Pharmacy Technicians?

The job demand for Pharmacy Technicians is good at this time. There is a need for Pharmacy Technicians wherever Pharmacists work.

How long does the training take for a Pharmacy Technician?

Training for Pharmacy Technicians takes approximately 12 months. The training is on the SLCC Jordan campus, in local hospital pharmacies, retail pharmacies, clinics and home health care operations.

Prerequisite to first semester classes:

College admission; program admission; CPT scores (on file in Assessment Center) placing in MATH 0990 or above, or a C or better in Math 0920 or MATH 0950 within the last two years; and a typing test of 30 NWPM..

Certificate upon Program Completion

A certificate is awarded at the end of 12 months of training if the student has a C average or better in each class.

Is there financial aid available?

Sorry, there is NO financial aid available at this time.
