No

Information current at time of printing.

CDL Learner's Permit Class A & B

This 16-hour course provides instruction that helps students prepare to take the CDL written test required to obtain a learner's permit prior to beginning the Professional Truck Driving Program. Instruction includes air brakes, tractor-trailer combinations and general trucking operations.

CDL Upgrade

This course helps people who have had previous truck driving experience prepare for the CDL road test. Individuals interested in the course must have all the required documents: a current driving record (no DUIs within the past two years), a CDL license or learner's permit, and a current Department of Transportation (DOT) medical card. Individuals must be willing to participate in the SLCC random drug testing program.
