

How to Make an SLCC Concurrent Enrollment (High School for College Credit) Payment Through the eStore

Paying through the SLCC eStore is an alternative to logging into mySLCC and SLCCPay+. We know that some students and parents experience difficulties accessing those systems, so we've provided the eStore as a convenient payment option.

1. Visit eStore

Go to <http://slcc.edu/bursar/concurrent-marketplace-store.aspx>

2. Enter the Payment Amount

Enter the total payment amount for **one student only**. Please register the student for the course or courses before payment.

3. Enter the Student's SLCC ID Number

Provide the student's SLCC ID number exactly as it appears, including the "S" (for example, S01234567).

4. Enter Student's Date of Birth

Enter the student's date of birth.

5. Enter Student's Name

Enter the student's **first name** and **last name**.

6. Enter the High School Name

Input the student's high school name, then click **Continue**.

7. Select Semester

Select Semester from drop-down menu options.

8. Complete Your Payment

- Select **Checkout** to complete your payment.
- Or, select **Continue Shopping** to return to the Store Page and repeat Steps 1-5 to add another student's payment.

Please Note: Payments submitted through the eStore are **not applied to a student's account immediately**. A member of our Cashiering team will apply the payment to the student's account on the next business day. We request multiple student identifiers to help ensure the payment is applied to the correct account.
