

If you haven't set up a MySLCC account yet,
go to the next slide.

If you have already set up a MySLCC account
and need help accessing your email
("Bruinmail"), go to slide 44.

If you need help finding your student
number ("S Number"), go to slide 54.

The following processes, including multi-factor authentication (MFA), are essential to protect student information from the rampant identity theft and fraud affecting not just SLCC, but the entire country. Although these measures can be frustrating and require technological skills, they are essential for protecting sensitive data. We share your frustration with the complexity of these processes, but unfortunately due to the widespread fraud, they have become necessary to protect your information. We are dedicated to employing best practices to balance data security with student access. The risks of not protecting student information far outweigh the additional steps needed to secure it.
