

PRE-HEALTH SUMMER PROGRAM

About Us

Join us for an exciting adventure with our Pre-health Summer Program, where learning comes alive! One of the best parts is our amazing weekly trips to top healthcare facilities and colleges. Imagine exploring a variety of healthcare facilities where you'll learn about emergency response, trauma care, nursing duties, dental labs and more! But that's just the beginning. Our six-week college readiness classes cover Math, English, and Science, getting you ready for courses like English 1010, Math 1010, and Biology 1610 at Utah's colleges. Each day wraps up with 30-minute talks from various health professionals—like pharmacists, occupational therapists, medical assistants, nurses, dental experts, and clinical engineers. Open your mind to the exciting healthcare careers waiting for you!

Eligibility

Priority will be given to rising juniors and seniors interested in a career in healthcare, first-generation students and students who qualify for free or reduced lunch.
