SALT LAKE COMMUNITY COLLEGE

The School of Health Sciences at Salt Lake Community College (SLCC) welcomes all students to apply to our selective admissions programs who meet the admissions requirements based on the program of interest. Information regarding selective admissions requirements can be found [here](#).

Acceptance into a program does not guarantee availability of clinical placement, community clinical partners determine what students they will accept for clinical training purposes. Inability to complete clinical placements could prevent progression and completion of a program.

Graduation from a program does not guarantee the ability to obtain a Utah state license. Licensure is the exclusive right and responsibility of each state, students must satisfy individual state requirements, independent of SLCC graduation requirements. It is highly recommended that students consult in advance with the Utah Division of Occupational and Professional Licensing (DOPL) or similar agencies in other states, to find out more about eligibility for licensure. More information can be found on their [website](#).
