

Using Your SLCC OneCard for UTA On-Demand by VIA

Your SLCC OneCard is useable on UTA's On-Demand program for transit in the more remote areas of the UTA territory.

The UTA On-Demand has a limited service area, it is intended to transport riders to-and-from Bus and Train lines. For current service areas, see the [UTA website](#).

Please be aware, the UTA On-Demand program is different from traditional UTA Bus, Frontrunner, Trax, or Streetcar services. It is not a door-to-door service, instead it can transport riders to-and-from a nearby street corner to the nearest UTA station.

You can pay for your ride in the UTA On-Demand app using a credit card, debit card, FAREPAY card, or passes like the UTA Eco Pass or SLCC's EdPass.

Follow these steps below to obtain and enter your card's Unique Identifier (UID) into the UTA On-Demand app.
