

Certified Nursing Assistant—Registration Information

Updated 07/19/2022

The [SLCC Certified Nursing Assistant](#) program helps students prepare for certification in Utah. Additional information about applying for CNA certification is available on the [Utah Nursing Assistant Registry \(UNAR\)](#) website. Please visit this website to find out more about certification and testing requirements in Utah.

This document represents a good faith effort to describe registration requirements in other states. In order to practice as a Certified Nursing Assistant, students must satisfy individual state requirements, independent of SLCC program requirements. Additional registration requirements not listed in this document may include registration fees, criminal background checks, disclosure of professional disciplinary actions, or other unique state requirements. If you are interested in working as a CNA in another state, please review the state's CNA registry website for additional information.

Reciprocity

Some states participate in CNA reciprocity. Students who earn their CNA certification in Utah can apply to have their certification transferred to another state through reciprocity. Not every state participates in reciprocity. Some states may have additional requirements for training, testing, or work experience that are different from Utah certification requirements. A link to the [Application for Certification by Reciprocity](#) (PDF) form is available online from [UNAR](#).

If you have difficulty finding the registration requirements for your state, please contact Candice Williams, 801-957-6362, or email candice.williams@slcc.edu, or you can email StateAuthorizationCoordinator@slcc.edu for additional assistance.
