

What does the Clinic offer?

- Interventions such as therapeutic exercise, functional training, manual therapy techniques, and electrotherapeutic and physical agent modalities to improve the health and function of each patient.
- Therapy in areas such as of range of motion, manual muscle testing, and impairments in sensation, perception, and cognition.
- Assessments to establish a plan of care that includes specific interventions designed to help patients meet their goals and improve overall wellbeing.
- Opportunities for patients to learn skills that will allow them to be more independent in their activities of daily living.
- Home exercise programs for the patient to help maintain their progress and continue to improve.
- Treatments for children to address developmental problems ranging in severity.
- Therapy can be delivered through Telehealth and will allow clients to meet their goals from home.

Clinic Benefits

- Free Occupational and Physical Therapy services.
- Services delivered by college students under the supervision of licensed clinicians.
- Assistance and funds available to purchase telecommunication devices, adaptive equipment, and exercise tools.
- HIPAA compliant telehealth platform to safeguard information.

Who provides the therapy?

As a student-run clinic, treatment is provided by SLCC students and certified occupational therapy practitioners and physical therapists who serve as SLCC faculty.

Physical and occupational therapists provide health care services to patients of all ages and health conditions and serve the community by improving and maintaining people's quality of life.

What about costs and services?

All services are provided free of charge. The services are provided to individuals:

- Who do not have physical therapy and occupational therapy insurance benefits or have exhausted their PT and/or OT benefits and continue to need services.
- Who fit into the category of "underserved" or "underinsured" populations and have difficulty currently paying co-pays for PT and/or OT.
- Who, because of their diagnosis and rehab potential, will be good teaching candidates for our students. *

*Our pro bono clinic focuses on clients who will be good teaching candidates for our students by prioritizing clients whose diagnosis and rehab potential fit the needs of the current didactic teaching curriculum.

Clinic Hours

Physical and Occupational Therapy is available for the fall and spring semesters. Call 801-957-6214 for specific hours to make an appointment or email lyndsay.fait@slcc.edu or stacey.romney@slcc.edu with questions.

Keep your scheduled appointment or call 24 hours in advance to cancel so the clinic can see other patients.

Services are provided in English. If needed, please bring a trusted interpreter to your appointment.
