

Radiologic Technology

The Science of Healing. The Art of Compassion.

The Radiologic Technology program provides students with the knowledge and skills necessary to competently perform radiologic procedures. The program offers a curriculum that encourages problem-solving skills, critical thinking, communication skills, personal growth and professional development.

WHY SLCC?

The Radiologic Technology program is housed in the state-of-the-art Health Sciences Building on SLCC's Jordan Campus. Clinical education occurs at local healthcare facilities.

The Radiologic Technology Associate of Applied Science (AAS) degree allows the student to take the American Registry of Radiologic Technologists (ARRT) examination in radiology, which leads to National ARRT Certification and State Licensure. The program offers theoretical and clinical experiences to learn skills of an entry-level radiographer.

The program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT).

ADMISSION PROCESS

- All applicants **must be at least 18** years of age.
- HESI pre-admission exam – a minimum of 75% is required for consideration for admission to the program. However, this does not guarantee admission into the program.
- Written Essay – see the Radiologic Technology webpage for essential information regarding the essay requirements: slcc.edu/radtech/admissions.aspx
- Be admitted to SLCC as a matriculated student.
- Request an **official evaluation** of transcripts and submit to the SLCC Incoming Transcript Office, if applicable.
- Application information including prerequisites, transcripts and Health Sciences pre-admission exam can be found at: slcc.edu/hs/admissions
- Complete the SLCC placement process or submit current SAT/ACT test scores.

PREREQUISITES

Note: All prerequisites must be completed **before** applying to the Radiologic Technology program:

- BIOL 2320/2325 Human Anatomy Lecture/Lab (4)
(If you are taking Human Anatomy at SLCC, you must complete BIOL 1610/1615 first with a C grade or better.)
- Any Composition (EN) Course (3)
- Math 1010 Integrated Algebra (QS) or any Quantitative Literacy (QL) Course (3), except Math 1030 Quantitative Reasoning, Math 1040 Intro to Statistics recommended
- RADS 1010 Intro to Rad Tech[^] (2)

[^]Offered online

PROGRAM SPECIFIC COURSES (GENERAL EDUCATION):

(Recommended before entering program)

- Any Communication (CM) Course, COMM 1010 Elements of Effective Communication or Comm 2110 Interpersonal Communication recommended (Accepted by all H.S. programs)

- Any Human Relations (HR) **EXCEPT** ART 1150 Art Foundation Seminar, HS 2050 Cultural, Legal & Ethical Issues recommended for Health Sciences.

The prerequisites must be completed with a C grade or better, with the exception of BIOL 2320/2325, which **must** be completed with a B- grade or better within five years. It is the student's responsibility to examine each description for details of other prerequisite courses. Applicants have the option of retaking any prerequisite course only once to improve their grade. The highest grade of the two attempts will be used.

THE CURRICULUM

The AAS degree in Radiologic Technology leads to national certification and state licensure. The program offers students didactic and clinical experiences to learn skills of an entry-level radiographer. Radiology courses are taught at Jordan Campus and clinical education occurs at local healthcare facilities. Students can complete General Education classes at any SLCC campus location.

ADDITIONAL INFORMATION

- Students are admitted every fall semester.
- Approximately 25 students are accepted contingent upon clinical sites.
- An evening program is offered every even-numbered year.
- Accepted students must take the RADS courses in the order outlined in the curriculum. To remain in the program, students must complete the RADS courses with a C grade or better.
- Accepted students are required to attend the mandatory new student orientation day.
- Students will be responsible to provide their own transportation to clinical sites.

It is highly advised that students take the required general education courses to fulfill the Communication (CM) and Human Relations (HR) designations before applying to the Radiology Program. If a student is unable to do so, these courses need to be completed prior to completion of the program.
