Programming or Service Highlights:

- CSES successfully developed Social Media workshops to help students use social media and ePortfolios as an employment resource.
- CSES successfully hosted a fall and spring Job Fair and with the help of Auxiliary Services we were able to increase employer participation by five.

Assessment Highlights:

- CSES dashboard indicators reflect that employment opportunities are returning to pre-recession numbers indicating a healthier economy and opportunities of student employment.
- OCSE continues to be popular with both students and SLCC departments. Persistence and learning outcomes indicate student learning and student acquisition of job skills competencies are being achieved. 32.6% of OCSE are International Students. 45.6% of all participating students were employed in a job related to their field of study.
- The CSES Graduate Survey efforts have yielded an increase in student response from 36% to 63% Kudos to the CSES Staff. This information is being shared with Institutional Advancement for review and dissemination to respective training programs.
